Optional Attendees: McLaughlin, Julianne

Tribal colleagues, we are going to skip the joint session with Montana DEQ this time as recent updates on the selenium criteria schedule were conveyed to the tribes last week and we don't think there are other criteria updates at this time. So we are shortening the time for the call. We do have updates on the following items:

- Status of EPA's Kootenai watershed 60-day report to Congress (Ayn)
- Upcoming IJC briefing on the Kootenai watershed from DOS and GAC (Ayn)
- Environmental assessment process for Teck's Castle project (Jason)
- Update on Transboundary Monitoring Task Group activities for 2020 (Jason)
- Update on where we are with the US expert review of SRF technology (Ayn)
- Other items of interest to tribes?
